Realtime progress report

The image displays a mobile application interface for service management, presented in two panels. The left panel shows the 'Detail Pekerjaan' (Job Details) screen. At the top, it has a status bar with signal, time (12:00), and battery icons. Below is a back arrow and the title 'Detail Pekerjaan'. The main content includes the company name 'Ninja Express', a job number 'No : 12213123123', and a location 'Lokasi : Cabang Sunter'. A section titled 'Deskripsi Pekerjaan' (Job Description) lists 'Room : Ruang Meeting', 'Jenis AC : AC Split', and 'Merek AC : Sharp 1 PK'. Below this is a 'Tipe Pekerjaan' (Job Type) section with two options: 'Preventive Maintenance' (selected with a blue checkmark) and 'Corrective Maintenance' (unselected). At the bottom of this panel is a 'Photo Sebelum Pekerjaan' (Photo Before Work) section with a photo of an air conditioner and an 'Upload Photo' button. The right panel shows the 'Photo Sesudah Pekerjaan' (Photo After Work) section with a photo of the same air conditioner and an 'Upload Photo' button. Below this is a 'Rekomendasi' (Recommendation) section with a text input field containing 'Mesti ganti unit'. The 'Catatan' (Notes) section has a text input field with 'Unit sudah lemah' and a character count '15/250'. The 'Status' section has two radio buttons: 'Pending' (unselected) and 'Selesai' (selected with a blue dot). At the bottom of the right panel is a large blue 'Submit' button.

Our Service

HVAC Maintenance

The HVAC system, like any other setup, needs regular maintenance and care. If you do not clean and maintain the system, its functionality will begin to slide and eventually the whole system will fail. This can force you to spend money on heating system replacement. Regular maintenance ensures the HVAC delivers consistent performance and lasts after a very long time.

The very best way to guarantee your system operates well is to hire an expert to handle the job. You can elect for annual HVAC care contracts at an affordable cost.

Here's what you can expect from HVAC maintenance:

- Chemical Treatment Cooling Water
- Vacuum Lumpur Lower Basin
- Maintain Cleanliness

Our Service

Service & Repair

In executing our job, we always follow the Standard Operation Procedures from principal For maintenance work, we do in daily, weekly, monthly, quarterly, semi annually and annually as in Operation and Maintenance Manual For us customer satisfaction is a must We will keep all equipment which is our responsibility always in a good condition and optimum operation.

- Repair
- Part Replacement
- Annual Shutdown
- Overhaul HVAC Equipment (Chiller, Air Handling Unit/Fan Coil Unit, Pumps & Cooling Tower)

Our Service
